OUR MISSION

Dream Centers provides health and hope for people working to rebuild their dreams.

DESCRIPTION OF PROGRAMS

MARY'S HOME

Mary's Home is a multi-year residential program designed to break cycles of poverty and brokenness for single mother-led families exiting homelessness. Women accepted into the program are provided a fully furnished apartment to call their own and are supported by a community of peers, volunteers, and trained professionals who walk alongside them as they take on the hard work of healing from past trauma and becoming thriving and independent individuals. Life skills, mental health counseling, coaching, education, and career training are part of the high-challenge, high-support curriculum.

WOMEN'S CLINIC

The Women's Clinic is the only free gynecology clinic in the state for women aged 13-64, who are uninsured or underinsured and have nowhere else to turn for their medical needs. Patients receive access to a full suite of wrap-around women's physical and mental health services including preventative care, ultrasounds, pregnancy resources, cancer screenings, and chiropractic appointments. Additional services offered include counseling, physical therapy, nutrition education, medical massage, and resource advocacy.
